24 Security Elimination

24.1 Purpose

The purpose of security elimination is to allow securities (ISINs) to be removed from the system. Elimination of a security can be initiated by CDBL or Issuer.

24.2 Acknowledgements/Reports Available

List of Reports

File Name	Type	Availability
Balance Report for Security Elimination	Default	'N' days (Parameter set by CDBL) before elimination effective date. The report contains details about the balances present in the system for the ISIN under elimination.
